ANNUAL REPORT

OF THE

**DEPARTMENT OF INDIAN AFFAIRS**

FOR THE

YEAR ENDED MARCH 31

**1924**

*PRINTED BY ORDER OF PARLIAMENT*

OTTAWA  
F. A. ACLAND  
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY  
1924

*To General His Excellency the Right Honourable Lord Byng of Vimy, G.C.B.,  
G.C.M.G., M.V.O., Governor General and Commander-in-Chief of the  
Dominion of Canada.*

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of Indian Affairs for the fiscal year ended March 31, 1924.

Respectfully submitted,

CHARLES STEWART,  
*Superintendent General of Indian Affairs.*

OTTAWA.

REPORT

OF THE

DEPUTY SUPERINTENDENT GENERAL OF  
INDIAN AFFAIRS

FOR THE YEAR ENDED MARCH 31, 1924

## REPORT OF THE DEPUTY SUPERINTENDENT GENERAL.

OTTAWA, November 6, 1924.

Hon. CHARLES STEWART,  
Superintendent General of Indian Affairs,  
Ottawa.

SIR,—I have the honour to submit the report of the Department of Indian Affairs for the year ended March 31, 1924.

The Indians of Canada, generally speaking, have had a normal year and it may be said that as time goes on they are slowly but surely improving both in their economic and sociological condition.

In the following pages will be found a brief outline of the more important administrative activities of the department during the period under review.

## BRITISH COLUMBIA INDIAN LAND SETTLEMENT

Of special interest is the final adjustment of the British Columbia Land Question which has been a difficult and controversial issue for many years. The subject has been the occasion of almost constant discussion and negotiation since Confederation. By the Thirteenth Article of the Terms of Union (given force and effect by an Order of Her Majesty in Council under the British North America Act), it was provided as follows:—

“The charge of the Indians and the trusteeship and management of the lands reserved for their use and benefit shall be assumed by the Dominion Government, and a policy as liberal as that hitherto pursued by the British Columbia Government shall be continued by the Dominion Government after the Union.

“To carry out such policy, tracts of land of such extent as it has hitherto been the practice of the British Columbia Government to appropriate for that purpose, shall from time to time be conveyed by the local Government to the Dominion Government in trust for the use and benefit of the Indians on application of the Dominion Government; and in case of disagreement between the two Governments respecting the quantity of such tracts of land to be so granted, the matter shall be referred for the decision of the Secretary of State for the Colonies.”

In the subsequent administration of the Indian lands a difference soon arose between the Federal and Provincial Governments with respect to the basis of acreage of reserves. The Dominion authorities contended that each Indian family should be assigned a location of eighty acres of land of average quality, such land to remain permanently the property of the family for whose benefit it was originally allotted. This matter was the subject of lengthy correspondence and in the year 1873 the Provincial Government formally decided that the Dominion requirement of eighty acres of land per family “was greatly in excess of the grants considered sufficient by the previous Governments of British Columbia” and proposed that “Indian reserves should not exceed a quantity of twenty acres for each head of a family of five persons”.

As a result of continued negotiation, both Governments entered into the Agreement of 1875-6, under which a joint commission was constituted to allot reserves. The agreement set forth that the commission was “to fix and determine for each nation separately, the number, extent and locality of the reserve or reserves to be allotted to it”; that “no basis of acreage be fixed but that each

15 GEORGE V, A. 1925

nation of Indians of the same language be dealt with separately"; that "each reserve shall be held in trust for the use and benefit of the nation of Indians to which it has been allotted"; that "in the event of any material increase or decrease hereafter of the numbers of a nation occupying a reserve, such reserve shall be enlarged or diminished, as the case may be, so that it shall bear a fair proportion to the members of the band occupying it"; and that "the extra land required for any reserve shall be allotted from Crown lands, and any land taken off a reserve shall revert to the province".

The reversionary interest thus created proved a stumbling block to administration. A sort of dual ownership was set up which made it impossible for the Dominion Government without the concurrence of the Provincial Government to dispose, for the benefit of the Indians, as in other parts of the Dominion, of any of the reserved land or the timber or other valuables thereon or therein. Subsequent provincial legislation still further complicated the situation until finally, on the 24th day of September, 1912, an agreement was entered into between J. A. J. McKenna, a special commissioner appointed by the Dominion Government, and the Hon. Sir Richard McBride, Premier of the province, wherein it was agreed that a Royal Commission should be appointed for the purpose of settling all outstanding differences between the two Governments respecting Indian lands and Indian affairs generally in the province of British Columbia. This commission was appointed and constituted by Orders in Council dated the 27th day of November, 1912, and the 23rd day of April, 1913.

The commissioners at once proceeded to consider the question assigned them, and after careful perusal of all documents and correspondence relating to the matter involved, visits in person to the various reserves and numerous meetings with the Indians, a report was, on the 30th day of June, 1916, presented to His Royal Highness, the Governor General of Canada, and to His Honour the Lieutenant-Governor of the Province of British Columbia. This report reviewed the whole question in detail and certain specific recommendations were made with respect to each and every reserve in the province. In some instances the existing reserves were confirmed as previously allotted, while in others, for certain reasons, it was recommended that the area should be reduced, and in a number of cases the commissioners reported that the lands were no longer required for Indian use and might be disposed off.

In 1919 the province of British Columbia passed the necessary enabling legislation, Chapter 32, British Columbia, 1919, and similar legislation was passed by the Dominion in the following year, Chapter 57, George V, 1920. Pursuant to the authority provided by this legislation the report of the Royal Commission on Indian Affairs in the province of British Columbia, as revised and amended from time to time, has now been jointly ratified by the Governments of the Dominion and the province. The necessary Order in Council of the Dominion was passed July 19, 1924; that of the province having been previously passed.

The effect of this joint ratification is to confirm the absolute title to the reserves in the Dominion Government and to eliminate the reversionary provincial interest herein above referred to. The settlement of this question on a mutually agreeable basis as between the Dominion and the province will be a source of great satisfaction to all concerned, and particularly to the Department of Indian Affairs, as it will enable the department to apply to its administration in British Columbia the same general policy as followed in the other provinces. Uniformity of administration tends to efficiency and for both the Indians and the department the result will be advantageous.

SESSIONAL PAPER No. 14

## CHIPPEWAS AND MISSISSAGUAS TREATY

For upwards of seventy years the Chippewa Indians of Lakes Simcoe and Huron now residing on Christian Island in the Georgian bay, Georgina Island in lake Simcoe, and at Rama on lake Couchiching, and the Mississagua Indians of Rice Lake, Mud Lake, Scugog and Alderville have constantly pressed upon the attention of the Government a claim to compensation in respect of their ancient hunting limits situated in that part of the province of Ontario bounded on the west by the Georgian bay; on the north by the French river, lake Nipissing and the Ottawa river; on the east by a line running from the town of Pembroke on the Ottawa river southeasterly to the southeast corner of the township of Brome, in the county of Renfrew, said line being the western boundary of a former treaty, and on the south by a line running from the southeast corner of the said township of Brome southwesterly to the north end of lake Simcoe.

Upon an inquiry made by the Department of Indian Affairs it appeared that the said claim had such probable validity as to justify and require a formal investigation, and that if the claim should be established compensation should be made to the claimants. An agreement was accordingly entered into during the month of April, 1923, between the Government of the Dominion of Canada and the Government of the province of Ontario providing for the appointment of three persons as commissioners to inquire into the validity of the claim and the empowering of the said commissioners in the event of their determining in favour of the validity of the said claim to negotiate a treaty with the said Indians upon the payment of such compensation as might be fixed by such treaty. Of the three commissioners so appointed one was to be selected by the Dominion Government, who should be chairman of the commission, and the remaining two were to be selected by the Minister of Lands and Forests for the province, Mr. A. S. Williams, Departmental Solicitor of Indian Affairs, was selected by the Dominion Government, and Mr. R. V. Sinclair, K.C. of Ottawa and Mr. Uriah McFadden, K.C., of Sault Ste. Marie, were selected by the Minister of Lands and Forests for the province.

The result of the investigation was that the claims of the Indians were established to the satisfaction of the commissioners, who decided that the sum of \$500,000 would be a reasonable and fair compensation to be paid in satisfaction of the said claim.

Treaties were subsequently made for a surrender of the aboriginal rights of the said Chippewas and Mississaguas over the territory in question for the sum of \$500,000 to be divided equally between the Chippewas and the Mississaguas, which has been paid to the Dominion by the Ontario Government.

According to the Chippewa Treaty each member of the three bands of Christian Island, Georgina Island and Rama was paid the sum of \$25 and the balance of the \$250,000 is to be divided among the bands in proportion to their membership. The same terms were included in the Mississagua Treaty, with the Scugog, Mud Lake, Rice Lake and Alnwick Bands.

## AMENDMENTS TO THE INDIAN ACT

Several amendments were made to the Indian Act at the past session of Parliament, being embodied in one Act. Among these, that of most interest is the provision whereby the Eskimos are brought under the charge of the Superintendent General of Indian Affairs. These people who, according to recent census statistics, now number 6,538, have not, previous to this enactment, been officially under the supervision of any Government department by Act of statute. The Department of Indian Affairs has, however, annually afforded them relief, and where occasion offered has assisted them in the matter of education for their children, and medical attendance. It is felt that the designation of a special department to deal with Eskimo affairs will facilitate uniformity of policy in dealing with their problems.

## ONTARIO INDIAN RESERVE LANDS

At the past session of Parliament an enactment was passed confirming an agreement between the Dominion of Canada and the province of Ontario, similar legislation having been passed by the province defining the respective rights of the Dominion and the province touching the disposition of lands in Indian reserves, inclusive of minerals. Prior to this agreement the status of surrendered Indian reserve lands was in doubt owing to the fact that the surrender of the whole or some part of the reserve by the band of Indians to whom the same was allotted has, in respect of certain reserves in the provinces of Ontario and Quebec, been under consideration in certain appeals to the Judicial Committee of the Privy Council; and the respective rights of the Dominion of Canada and the Province of Ontario, upon such surrenders being made, depend upon the law as declared by the Judicial Committee of the Privy Council and otherwise affecting the reserve in question, and upon the circumstances under which it was set off. This position was embarrassing to the Dominion of Canada in as much as it constituted an obstruction to the disposal by sale of such surrendered Indian reserve lands for the benefit of the Indians. However, the agreement overcomes this difficulty in the following terms:—

1. All Indian reserves in the province of Ontario heretofore or hereafter set aside, shall be administered by the Dominion of Canada for the benefit of the band or bands of Indians to which each may have been or may be allotted; portions thereof may, upon their surrender for the purpose by the said band or bands, be sold, leased or otherwise disposed of by letters patent under the Great Seal of Canada, or otherwise under the direction of the Government of Canada; and the proceeds of such sale, lease or other disposition applied for the benefit of such band or bands, provided, however, that in the event of the band or bands to which any such reserve has been allotted becoming extinct, or if, for any other reason, such reserve, or any portion thereof is declared by the Superintendent General of Indian Affairs to be no longer required for the benefit of the said band or bands, the same shall thereafter be administered by, and for the benefit of the Province of Ontario, and any balance of the proceeds of the sale or other disposition of any portion thereof then remaining under the control of the Dominion of Canada shall, so far as the same is not still required to be applied for the benefit of the said band or bands of Indians, be paid to the Province of Ontario, together with accrued unexpended simple interest thereon.

2. Any sale, lease or other disposition made pursuant to the provisions of the last preceding paragraph may include or may be limited to the minerals (including the precious metals) contained in or under the lands sold, leased or otherwise disposed of, but every grant shall be subject to the provisions of the statute of the Province of Ontario entitled "The Bed of Navigable Waters Act", Revised Statutes of Ontario, 1914, chapter thirty-one.

3. Any person authorized under the laws of the Province of Ontario to enter upon land for the purpose of prospecting for minerals thereupon shall be permitted to prospect for minerals in any Indian Reserve upon obtaining permission so to do from the Indian agent for such reserve and upon complying with such conditions as may be attached to such permission, and may stake out a mining claim or claims on such reserve.

4. No person not so authorized under the laws of the Province of Ontario shall be given permission to prospect for minerals upon any Indian reserve.

5. The rules governing the mode of staking and the size and number of mining claims in force from time to time in the Province of Ontario or in the part thereof within which any Indian reserve lies shall apply to the staking of mining claims on any such reserve, but the staking of a mining claim upon any Indian reserve shall confer no rights upon the person by whom such claim is staked except such as may be attached to such staking by the Indian Act or other law relating to the disposition of Indian lands.

6. Except as provided in the next following paragraph, one-half of the consideration payable, whether by way of purchase money, rent, royalty or otherwise, in respect of any sale, lease or other disposition of a mining claim staked as aforesaid, and, if in any other sale, lease or other disposition hereafter made of Indian reserve lands in the Province of Ontario, any minerals are included, and the consideration for such sale, lease or other disposition was to the knowledge of the Department of Indian Affairs affected by the existence or supposed existence in the said lands of such minerals, one-half of the consideration payable in respect of any such other sale, lease or other disposition, shall forthwith upon its receipt from time to time, be paid to the Province of Ontario; the other half only shall be dealt with by the Dominion of Canada as provided in the paragraph of this agreement numbered 1.

## SESSIONAL PAPER No. 14

7. The last preceding paragraph shall not apply to the sale, lease or other disposition of any mining claim or minerals on or in any of the lands set apart as Indian reserves pursuant to the hereinbefore recited treaty made in 1873, and nothing in this agreement shall be deemed to detract from the rights of the Dominion of Canada touching any lands or minerals granted or conveyed by His Majesty for the use and benefit of Indians by letters patent under the Great Seal of the Province of Upper Canada, of the Province of Canada, or of the Province of Ontario, or in any minerals vested for such use and benefit by the operation upon any such letters patent of any statute of the Province of Ontario.

8. No water-power included in any Indian reserve, which in its natural condition at the average low stage of water has a greater capacity than five hundred horse-power, shall be disposed of by the Dominion of Canada except with the consent of the Government of the Province of Ontario and in accordance with such special agreement, if any, as may be made with regard thereto and to the division of the purchase money, rental or other consideration given therefor.

9. Every sale, lease or other disposition heretofore made under the Great Seal of Canada or otherwise under the direction of the Government of Canada or lands which were at the time of such sale, lease or other disposition included in any Indian reserve in the Province of Ontario, is hereby confirmed, whether or not such sale, lease or other disposition included the precious metals, but subject to the provisions of the aforesaid statute of the Province of Ontario entitled "The Bed of Navigable Waters Act", and the consideration received in respect of any such sale lease or other disposition shall be and continue to be dealt with by the Dominion of Canada in accordance with the provisions of the paragraph of this agreement numbered 1, and the consideration received in respect of any sale, lease or other disposition heretofore made under the Great Seal of the Province of Ontario, or under the direction of the Government of the said Province, of any lands which at any time formed part of any Indian reserve, shall remain under the exclusive control and at the disposition of the Province of Ontario.

10. Nothing herein contained, except the provision for the application of "The Bed of Navigable Waters Act" aforesaid, shall affect the interpretation which would, apart from this agreement, be put upon the words of any letters patent heretofore or hereafter issued under the Great Seal of Canada or the Great Seal of the Province of Ontario, or of any lease or other conveyance, or of any contract heretofore or hereafter made under the direction of the Government of Canada or of the Province of Ontario.

## SIX NATIONS ELECTION SYSTEM

Until the present year the Six Nations Indians, who are located at Ohsweken, Brant county, Ontario, had from time immemorial selected their chiefs and councillors by an ancient hereditary system in which the voting power lay with the women of the different tribes and clans. It had been for some years obvious that this obsolete system was wholly unsuited to modern conditions of life and detrimental to progress and advancement. There has unfortunately developed, moreover, during the past few years a retrogressive and obstructive agitation on the reserve which has so impeded progressive administration that it was felt that an improvement in their political system must be effected without delay. In March, 1923, the Government appointed a Royal Commission in the person of Lt.-Col. Andrew T. Thompson to investigate the affairs of the Six Nations. The commissioner in his report, among other important recommendations, strongly urged the abolition of the old tribal system of choosing the councillors. This recommendation was promptly put into effect by the department. An Order in Council, dated September 17, 1924, was passed applying the election provision of Part Two of the Indian Act to the Six Nations. The election was held on October 21, 1924. Under the new method, the Six Nations will have a measure of local autonomy largely corresponding to that of a rural municipality but subject to the supervision of the department and the Governor in Council. It is felt that the change that has been made will assuredly further the development of these Indians and hasten the time when they will become a fully responsible and self-supporting community.

## HEALTH SUPERVISION

The department provides medical attention for the Indian bands in all parts of the Dominion, and every effort is being made to preserve and improve the physical wellbeing of the native races. All the reserves in settled communities have physicians on part time service who come at the call of the agent, and in three large reserves the department employs permanent physicians whose whole time is devoted to the work.

15 GEORGE V, A. 1925

As tuberculosis is the disease which most frequently attacks the Indians, special efforts are made to combat it. Beginning with the education of the children in the residential schools, the department endeavours to give the Indians some knowledge of the disease, and the best preventive methods. Through agents, physicians and field matrons, health propaganda is promoted on the reserves, and circulars are issued which are sent to the Indians as well as to their agents giving instructions in simple language regarding the care of tubercular patients and means of avoiding the spread of the disease.

It is the policy of the department to use as far as possible the hospital facilities provided by municipalities, but in some cases special wings for the use of Indian patients have been added to the municipal hospitals, and in addition there are a number of departmental hospitals for the sole use of Indian patients. An arrangement has also recently been made with the Saskatchewan Government whereby forty beds in the Qu'Appelle Sanitarium are made available for tubercular Indian patients.

One of the great difficulties encountered in the past has been the fact that the older Indians are inclined to place their faith in the Indian medicine men, and refuse treatment by white doctors. The members of the medical staff of the department report, however, that they are gradually winning the confidence of the Indians, and it is found that the hospitals maintained on the various reserves are becoming more freely used by the Indian people.

The small staff of travelling nurses, organized some years ago, has proved to be of great value. These nurses make regular inspection trips to the various agencies throughout the western provinces, and it is their duty to make a thorough examination of all children in Indian schools, as well as to visit the homes on the reserves, giving assistance and advice. Simple talks on sanitation, diet and home-making are given, and many of the Indian women gratefully accept the advice of the nurses regarding the care of their children. The Indian women and girls are encouraged by the nurses and field matrons to cultivate gardens, and they are instructed in methods of canning fruit and vegetables for the winter months. It is felt that by such simple instruction in the art of living, coupled with the care given by the Indian agents and medical attendants, the health of the Indian people is being materially improved.

## AGRICULTURAL OPERATIONS IN THE PRAIRIE PROVINCES

The reports received with regard to the stock raising and farming operations among the Indians of the Prairie Provinces are very encouraging.

The Indians of these three provinces were most fortunate last winter in having very few cattle losses. As a result of a mild winter, and the natural increase, which was good, the herds have increased by over six thousand head. The number of calves raised in the last year is somewhat over five thousand head. The Indian cattle in Alberta and Saskatchewan are said to be as good as any grade of cattle in the two provinces. Last year two lots of cattle were sent to Winnipeg, which were entered in the Stock Feeder Show, and these groups were awarded first and third prizes. The department has for many years exercised great care in selecting the best sires possible to build up these herds.

As the years go by the Indians are taking a keener interest in their live stock and less supervision is required than there was ten or fifteen years ago. The Indians who are engaged in stock raising and farming to-day are chiefly those who have graduated from the departmental schools and who are more progressive than the old time Indians who preferred to make a bare existence through hunting.

## SESSIONAL PAPER No. 14

In Manitoba the department has purchased quite a number of well-bred heifers during the past two years and placed them on the reserves. Instructors are employed to supervise the stock raising operations of the Indians and a large increase in the herds is expected henceforward.

The Indians in the three Prairie Provinces sowed this year approximately seventy thousand acres of land. This crop was well put in, in fact the work in most cases was as well done as in any white settlement. Unfortunately the spring was late and the summer unusually cold, and in some districts there was a lack of rain-fall, but notwithstanding all this the Indians have a fairly good crop this year, particularly in Manitoba and in the southern part of Saskatchewan and Alberta, where fortunately the largest areas are under crop.

The fact that the Indians of the three Prairie Provinces grew over a million and a quarter bushels of grain last year shows that they are a factor in the production of grain in the West.

## BUILDINGS

Herewith is a summary of the buildings erected during 1923-24.

## INDIAN RESIDENTIAL SCHOOLS

Building of main building for new Coqualeetza Indian Residential School.

Building of administration building for the new Kamloops Indian Residential School.

New Indian Residential School at Edmonton.

Addition was commenced for the Cross Lake Indian Residential School.

Elkhorn Indian Residential School and outbuildings were completely overhauled and the buildings put in a condition to allow for the opening of the school.

New low pressure steam heating system provided at Mount Elgin Institute at Muncey.

Repairs were made to the Kootenay Indian Residential School, and a new chimney was built in connection with heating system.

New water supply system was provided for the Fraser Lake Indian Residential School.

Classroom built for the Portage la Prairie Indian Residential School.

## BARNs

New barns were built for the following Indian Residential Schools: Lytton, Fort Alexander, Qu'Appelle and Old Sun's.

## DAY SCHOOLS

Combined day school and teacher's residence, Big Cove, N.B.

Combined day school and teacher's residence, Bersimis, Que.

## OTHER WORKS

Indian Hospital was provided for Blackfoot Indian Reserve at Gleichen.

Combined teachers' residence and hospital was built at Tobique, N.B.

New Agency buildings were built for the Blood Agency, Alberta.

## BRIDGES, DRAINAGE, IRRIGATION SYSTEMS, ROADS AND WHARVES

Works of the following character have been carried out on the several Indian reserves during the current year.

## BRIDGES

Manitoulin Island, Golden Lake, Manitowaning, Ontario; Fort Alexander, Broken Head, Waywayseecappo, Manitoba; Bear River, Nova Scotia; and Lillooet, British Columbia.

## DRAINAGE SYSTEMS

Drainage systems have been constructed on the following reserves: Peguis, Manitoba; Oneida, Ontario; and Abenakis, Quebec.

## DYKING

Dyking work was carried out on the Eskasoni Indian Reserve, Nova Scotia.

## IRRIGATION SYSTEMS

Irrigation systems have been completed or are gradually being installed on the farming lands of the reserves at Kamloops and Lytton, British Columbia.

Improvements have been made to the highways and irrigation systems at Tobacco Plains, Clinton No. 2, Bridge River No. 1, Stony No. 1, and Kamloops, British Columbia.

## ROAD WORK

Repairs, improvements of roads, and maintenance of highways, have been carried out on the following reserves: Walpole Island, Golden Lake, Oneida, West Bay, Saugeen, Thessalon, Alnwick, Tyendinaga, Mud Lake, Cape Croker, and Kettle Point, Ontario; Caughnawaga, Ojibway, Lake St. John, Doncaster, Abenakis, Oka, North Temiscamingue, and Lorette, Quebec; Tobique, New Brunswick; Bear River, Eskasoni, Whycocomagh, Nova Scotia; Ochapowace, Kahkewistahaw, Cowesses and Sakimay, Saskatchewan, and Cowichan, British Columbia.

## WATER WORKS SYSTEMS

Waterworks systems for domestic purposes and fire protection have been installed at Bella Bella and Sliammon, British Columbia.

## SURVEYS

The following is a statement of the particular surveys and investigations made by the Survey Branch during the fiscal year ended March 31, 1924:

*Quebec.*—Several lots in the Maniwaki subdivision were reposted.

The boundaries of a number of lots in the Caughnawaga Indian reserve were re-established.

*Ontario.*—Investigation surveys and valuations were made in connection with certain islands in Rice and Pigeon lakes.

A reserve was surveyed for the Indians who were located at Mobert.

Parts of the boundaries of the Tyendinaga Indian reserve were re-established.

The Provincial Director of Surveys and the Chief Surveyor of this department conducted a joint investigation in connection with a number of islands in the Lake of the Woods and a decision was arrived at as to which of the islands in dispute properly belonged to Indian reserve No. 38B.

*Saskatchewan.*—A check survey was made of the subdivision of the Pasqua Indian reserve No. 79.

## SESSIONAL PAPER No. 14

Ten new reserves were selected and surveyed in the Isle a la Crosse district for the Indians of the Isle a la Crosse, Clear Lake and English River bands.

*Alberta.*—A portion of the Pigeon Lake Indian reserve No. 138A was subdivided into lots for summer resort purposes.

*British Columbia.*—A portion of the North Thompson Indian reserve No. 1 was subdivided for the purpose of allotting specified parcels to the individual Indians.

## EDUCATION

The training of the younger generation of Indians continues to be one of the important activities of the department. Closer association with the four churches actively engaged in the work has resulted in better and more standardized maintenance and instruction for the 13,872 Indian children that were enrolled during the year. There was a record parliamentary appropriation for Indian education of \$1,943,702.

Larger appropriations have permitted the replacement of old equipment and the engagement of better qualified teachers. Instruction is becoming more attractive and compares favourably with that in public and separate schools throughout Canada. In the West, residential schools are the most important factor in the programme. Main buildings were erected at the Edmonton and Coqualeetza Residential Schools, in Alberta and British Columbia, respectively. The central wing of a large institution at Kamloops, British Columbia, was finished and commencement was made on the St. Paul's School, near Cardston, Alberta. An addition was started at the Cross Lake Residential School, in Manitoba, and barns were erected at several institutions.

During the past fiscal year, 5,673 Indian children were maintained and educated in the residential schools. Compare this figure with 4,783, the enrolment of three years earlier, and the importance of this phase of the activity is apparent. It was considered in the interests of economy, from the standpoint of both department and churches, to increase the pupilage at residential schools to the limit of their accommodation. There has been a determined effort to secure the services of better qualified academic and vocational instructors for the boarding schools. The classroom and other departments are inspected by qualified officers.

An awakened interest in education on the part of Indian communities has resulted in more applications for admission to residential schools. Orphans, children of destitute parents and those living some distance from day schools on the reserves are given the preference, when the number of vacancies is limited.

In the Prairie Provinces, the department has carefully supervised the health of the pupils in residence. More medical and dental attention will result, no doubt, in a more robust type of graduate.

Considerable attention has been directed to those day schools where there is a good average attendance. Provincial curricula are followed and fully qualified teachers engaged. When teaching services are being engaged, preference is given to Indians who are qualified. Workers are encouraged to attend conventions, institutes and summer courses. A special effort has been made in the matter of physical education and in the correlation of classroom exercises with vocational training and home interests.

Indian children throughout Canada are studying more advanced work than in the past. During the past fiscal year 2,710 children were enrolled in Grade 4, or higher. Three years ago the number was 2,258. High school subjects are taught in several residential schools and in a few day schools. In the case of several of the residential schools that are situated close to municipal high schools and collegiates, the more advanced pupils in residence are benefiting by secondary training in competition with white children. During the fiscal year 1923-24, tuition grants amounting to \$15,299.33 have been allowed Indian students who are attending normal schools and colleges in the different provinces.

There were 73 residential and 242 day schools in operation during the year—a total of 315 Indian schools. In addition, the department assisted in the maintenance of 9 combined white and Indian schools. In Part 2 of this report will be found a tabular statement, showing the location and indicating the enrolment in the case of each school.

Compared with the previous year, there is an increase of one residential school. St. Joseph's, in southern Alberta, was closed and Edmonton and Elkhorn opened. Certain unprogressive day schools have been closed and the children recruited for residential schools. The loss in attendance at day schools in Manitoba and British Columbia is due to an increased enrolment at the residential schools of these provinces. The total enrolment for the year was 13,872 pupils—an increase over the preceding year of 149. The average daily attendance shows an increase of 82 pupils.

Several of the churches are actively engaged in the management of Indian day and residential schools, as follows:—

Roman Catholic.....	39	residential	and	78	day	schools;
Church of England....	21	“		70	“	
Methodist.....	6	“		39	“	
Presbyterian.....	7	“		5	“	
Salvation Army.....	1				“	

In addition to the 13,872 pupils shown in the tabular statements, there are some 125 Indian students enrolled in high schools and colleges in Canada. Further, approximately 50 Indian children are attending public schools which receive a small grant.

The expenditure for Indian education from parliamentary appropriation for the fiscal year ended March 31, 1924, amounted to \$1,943,486.09, as follows:

SESSIONAL PAPER No. 14

STATEMENT OF EXPENDITURE FOR THE YEAR 1923-24

Province	Day Schools	Residential Schools	Ex-Fupils	Salaries and Travel	Tuition	Freight, Express, Etc.	Miscellaneous	Total
	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.

In addition to the above, the various bands of Indians, whose funds are sufficient to meet the expenditure, contributed the sum of \$87,915.69 towards the payment of teachers' salaries, tuition grants, and for the establishment and maintenance of schools on their reserves. For the fiscal year ended March 31, 1924, the amounts so contributed have been as follows:—

		Capital		Interest	
		\$	cts.	\$	cts.
1	Batchewana Band.....			2,035	34
2	Chippewas of Beausoleil.....			1,100	04
3	“ Nawash.....			2,701	95
4	“ Rama.....			1,016	54
5	“ Sarnia.....			928	23

		37,857	57	50,058	12

The interest contributions were for current expenses, salaries of teachers, minor repairs and tuition grants. The expenditure from capital was for the erection of school buildings.

LANDS AND TIMBER

LANDS

Sales of surrendered, surveyed lands are shown in the tabular statement appearing in Part II of this report. During the past year 16,480.43 acres were sold, realizing \$72,650.51. The number of land patents issued during the year ending March 31 last was 195, and returns of Crown grants to the number of 48 were prepared and forwarded to the registrars of the counties and districts in which the lands patented were situate.

During the year a portion of the shore-front of Pigeon Lake Indian Reserve No. 138A, in the Province of Alberta and known as Ma-Me-O Beach, was surrendered by the Indians for the purpose of sale for summer resort purposes. The area surrendered was subsequently divided into lots which were offered for sale by public auction, when 42 of the lots were sold for the sum of \$7,975.00.

## SESSIONAL PAPER No. 14

## LOCATION TICKETS

Location tickets granting title under the provisions of the Indian Act, to individual owners, for lands on the reserve, were issued during the past year to the number of 65, and on March 31 last there were current 2,351 location tickets.

## LEASES

Under the provisions of section 11 of the regulations for the disposal of Indian lands, leases were issued to white men at the request of the Indian locatees to the number of 131, and on March 31 last there were 1,252 leases current.

## ENFRANCHISEMENT

Under the provisions of section 122A of the Indian Act there have been enfranchised during the past fiscal year 37 Indians, heads of families, comprising a total number of men, women and children of 89. The total number of Indians enfranchised to March 31, 1923, under this section is 1,124.

SUMMARY OF INDIAN AFFAIRS IN THE VARIOUS PROVINCES  
BASED ON THE REPORT OF THE DEPARTMENT'S AGENTS  
AND THE INSPECTORS FOR THE FISCAL YEAR ENDED  
MARCH 31, 1924.

The local administration of the Indian lands, on the reserves scattered throughout the Dominion, is conducted through the department's agencies of which there are in all 114. The number of bands included in an agency varies from one to more than thirty. The staff of an agency usually includes various officers in addition to the agent, such as the medical officer, clerk, farm instructor, field matron, constable, stockman, etc., according to the special requirements of the agency in question. At many of the smaller agencies in the older provinces, where the Indians are more advanced, the work is comparatively light, requiring only the services of an agent. The work of the agencies is supervised by the department's inspectors, each inspector having charge of a certain number of agencies.

## ONTARIO

*Agencies.*—The following agencies are included in the province of Ontario: Alnwick, Bay of Quinte, Cape Croker, Chapleau, Chippewas, Munsees, and Oneidas of the Thames, Christian Island, Fort Frances, Georgina and Snake Islands, Golden Lake, Gore Bay, Kenora, Lake Superior (Eastern and Western Divisions), Manitowaning, Mississaguas of the Credit, Moravians of the Thames, Parry Sound, Rama, Rice and Mud Lakes, Sarnia, Saugeen, Scugog, Six Nations, Sturgeon Falls, Thessalon and Walpole Island.

*Tribal Origin.*—The great majority of the Indians of Ontario are Ojibwas, and are of Algonkin stock. The Oneidas of the Thames, the Mohawks of the Bay of Quinte, the Mohawks of the Parry Sound district, and the Six Nations of Brantford are of Iroquoian stock. There is a band of Pottawattamies at Walpole island, and Delawares at the Caradoc agency; these are of Algonkin stock.

*Occupations.*—The Indians in the western and central parts of Ontario engage largely in farming. The reserves generally are well suited to this purpose and the activity of the department's field agents has resulted in a steady improvement both in the methods of operation and the results achieved. The success achieved by the returned soldiers of this province has been especially creditable and are rapidly developing prosperous communities.

During the summer months Indians find a profitable source of income as guides and canoe-men. Many are employed at various industries and trades while railway and navigation companies employ a large number. As a rule they are excellent bushmen and many find employment in the various lumber camps. There is still an excellent market for snowshoes, canoes and mocassins and these are usually manufactured by the other members of the community.

The women also have many sources of income; some are employed as domestics; others support themselves by making baskets and fancy work. In certain districts berry-picking is an important item and furnishes considerable income.

*Health.*—The health of the Indians of Ontario has been good during the past year. While tuberculosis is still their worst enemy the efforts of the department for the past decade have borne fruit and this disease is noticeably less than in previous years.

*Dwellings.*—A great majority of the Ontario Indians have comfortable farmhouses which compare very favourably with those of their white neighbours. Many own houses of brick and stone, but in the outlying and more remote districts the old log houses are in the majority. In the more settled districts the Indians have followed the examples of the whites and both houses and farm buildings are comfortable and of excellent construction.

*New Ontario.*—In the remote parts of Ontario hunting and fishing are still the chief sources of livelihood. While fur has been very scarce the price has been correspondingly high. Fishing, however, has not been as successful this year owing to the scarcity of the market and the low prices. Acting as guides and canoe-men during the summer months adds considerably to their income. While agriculture is not carried on to any extent most of the bands grow considerable crops of potatoes and vegetables. They are, of necessity, more or less nomadic and consequently live in tents most of the year. This condition will greatly change as civilization progresses.

The health has been generally good, although somewhat subject to tuberculosis.

## SESSIONAL PAPER No. 14

## QUEBEC

*Agencies.*—The following agencies are included in the Province of Quebec: Becancour, Bersimis, Caughnawaga, Lake St. John, Lorette, Maria, Mingan, Oka, River Desert, Restigouche, Seven Islands, St. Regis, Timiskaming and Viger.

*Tribal Origin.*—The principal tribes found in Quebec are: Iroquois at Caughnawaga, lake of Two Mountains, and St. Regis; the Hurons of Lorette are also of Iroquoian stock; the Montagnais, who are also of Algonkin stock, at Bersimis, Mingan, Lake St. John, Seven Islands; the Abenakis, also of Algonkin stock, at Becancour and St. Francis; the Micmacs, also of Algonkin stock, at Maria and Restigouche; and the Malecites, also of Algonkin stock, at Viger.

In the agricultural districts of the province the Indians are developing a keener interest in farming operations and are making a decided success. In the Gaspé peninsula the Indians find employment in the lumber camps and mills, but on the north shore of the gulf fishing, hunting and trapping are still the principal sources of income. In the northern part of the province lumbering is the chief pursuit. One of the principal industries of the Indians of Quebec is making baskets, and many of the Indians spend the summer months at the resorts in order to dispose of the baskets, lacrosse sticks, racquets, moccasins, etc., to the tourists. Some of them, particularly in the Saguenay districts, act as guides and canoe-men.

*Health.*—On the whole, the health of the Indians of Quebec has been good during the past year.

*Dwellings.*—In the older settled districts of the province the Indians own many excellent stone and brick houses. Generally speaking, the buildings are almost all of good construction, comfortable and sanitary. In the more remote districts, where hunting and trapping are still the principal occupations, the Indians necessarily live in tents during the greater part of the year.

*The North Shore.*—Along the north Shore of the gulf of St. Lawrence, the Indians have been taking a marked interest in the fishing industry. At Mingan, Natashkwan, Romaine, St. Augustine, and Moisie, the fishing is under departmental supervision. Salmon and cod are the principal marketable fish and are a source of considerable income to the Indians. The land is not suitable for extensive cultivation but many of the Indians have very creditable gardens.

## NEW BRUNSWICK

*Agencies.*—There are three agencies in the province of New Brunswick, the Northeastern located at Buctouche, the Northern located at Perth, and the Southwestern located at Fredericton.

*Tribal Origin.*—The majority of the Indians of New Brunswick belong to the Micmac race, which is of Algonkin stock. In addition to these there are some bands of Malecites, also of Algonkin stock.

*Occupations.*—In the Northeast division the Indians are mostly engaged in fishing, hunting and trapping. Some farming is carried on, and the Indians have rather tended to increase their interest in this regard.

The lumbering industry employs quite a large number and the Indians all through the eastern provinces have become very proficient in the lumber camps, on the river drives and in the mills. In the Northern division there is less farming carried on, and the Indians during the summer months find employment generally as day labourers. In the Southern division they support themselves chiefly by the manufacture and sale of Indian wares.

## NOVA SCOTIA

*Agencies.*—There are nineteen Indian agencies in the province of Nova Scotia, namely: Yarmouth, Digby, Shelburne, Queens, Lunenburg, Annapolis, Kings, Windsor, Shubenacadie, Halifax, Cumberland, Colchester, Pictou, Antigonish-Guysboro, Richmond, Inverness, Victoria, Sydney, and Eskasoni.

*Tribal Origin.*—The Indians of Nova Scotia are of Algonkin stock, and bear the distinctive name of Micmac.

*Occupations.*—They follow various occupations, but, as a rule, do not confine themselves to any particular one. Many of them cultivate the land with indifferent success, but as there are exceptions in almost every case, so it is with our Indians; a few of them are succeeding very well as farmers. The majority of those living near industrial centres usually work as day labourers. Hunting, trapping, and acting as guides for sportsmen are favourite occupations, more especially with Indians of middle age. Basket-making, and the manufacture of fancy moccasins, etc., are confined mostly to women. A profitable employment among Indians in a few sections of Nova Scotia is the manufacture of hockey sticks, and they appear to be experts at the business.

*Health and Sanitation.*—The general health of Indians in this province during the past year was normal. No disease of an epidemic character appeared among them. They suffer most from tuberculosis, which, however, seems to be less in evidence than formerly. Sanitary regulations are very well observed by most of them, and they begin to realize fully the importance of cleanliness and pure air as preservers and promoters of good health.

*Buildings.*—With very few exceptions, Indians in Nova Scotia occupy houses of frame construction, well finished on the outside, but unfinished inside. Every settlement, however, has a few comfortable dwellings well finished throughout. Other buildings owned by Indians—barns and storehouses—are mostly of frame construction also.

## PRINCE EDWARD ISLAND

*Agency.*—One agency is sufficient for the purposes of the department in this province, as the total Indian population is only 292.

*Tribal Origin.*—The Indians of this province all belong to the Micmac tribe, which is of Algonkin stock.

*Occupations.*—But few of the Indians of Prince Edward Island are farmers. The principal industries are basket-making and fishing. The oyster fisheries which had been a complete failure for some years, are again profitable and has added somewhat to the income of the Indians.

## MANITOBA

*Agencies.*—The following agencies are included in the Province of Manitoba; Fisher River, Clandeboye, Norway House, Griswold, Portage la Prairie and Manitowapah, Pas and Birtle.

*Tribal Origin.*—The majority of the Indians of Manitoba belong to the Ojibewa race, which is of Algonkin stock. Bands of Swampy Crees are found at the Norway House and Fisher River agencies and in the York factory district; these are also of Algonkin stock. The Indians located at the Griswold agency are Sioux; there are also Sioux at the Birtle and Portage la Prairie agencies. There is a band of Chipewyans at Fort Churchill; this tribe is of Athapascan stock.

The reserves in Manitoba suitable for extensive agriculture are mainly within the Birtle, Griswold, and Portage la Prairie agencies. On some reserves during the last two years the crops have not been up to the standard and the Indians have somewhat lost heart in their farming operations, but generally speaking progress has been satisfactory.

## SESSIONAL PAPER No. 14

In the northern agencies the occupations are mostly hunting and trapping, but fishing has been becoming a more and more important factor during the past four or five years, and considerable income has been derived therefrom. While fur has been scarce the price has been high and the market for fish has increased. All of the northern Indians are expert guides and canoe-men, and many find employment in this way or with the transport or fur companies.

In the southern and more settled districts many of the younger people seek employment as day labourers, and owing to the high wages have been fairly prosperous. The Indian women make needle work, baskets, etc., for which there is a ready market.

*Health.*—The health of the Indians throughout the province has been good, in fact the steady improvement has been very noticeable. More sanitary methods of living and more comfortable houses and more steady incomes have tended not a little towards this improvement. The houses are more comfortable and of better construction; as a rule they are well furnished and the Indians are living in more and more comfort. While in the north the nomadic life of the Indians does not permit of other than the old fashioned log house, still even these are being greatly improved and in some cases are being replaced by suitable frame dwellings.

## SASKATCHEWAN

*Agencies.*—The following agencies are included in the province of Saskatchewan: Assiniboine, Battleford, Carlton, Crooked Lake, Duck Lake, Moose Mountain, Onion Lake, Pelly, Qu'Appelle, and Touchwood Hills.

*Tribal Origin.*—The most numerous tribes among the Saskatchewan Indians are the Ojibewas, Swampy Crees and Plain Crees, which all belong to the great Algonkin stock. In addition to these, Sioux Indians are found at the Assiniboine, Moose Mountain, Qu'Appelle and Carlton agencies, and on the Moose Woods, reserve. In the Onion Lake agency there is a band of Chipewyans, who are of Athapascan stock. There are also a few Chipewyan Indians in the Isle à la Crosse district.

The principal occupation of the Indians of Saskatchewan is mixed farming and stock-raising. The close supervision which the department has had over these Indians has tended to greatly improve their method of farming and consequently their crops and income derived from them have greatly increased. Most of the Indians are well provided with good quality of machinery. As a rule they have good stock and suitable houses. In the outlying districts, however, hunting and trapping are still the main sources of income and will so remain until civilization encroaches upon the hunting grounds.

*Health.*—The health of the Indians of Saskatchewan has on the whole been good and shows some improvement over previous years. The department has instituted a staff of nurses, with headquarters at Regina, which will be available for duty at any reserve when called upon. It is hoped that by constant supervision and instruction that the health of the Indians will continue to show even greater improvement than in the past.

*Dwellings.*—The dwellings of the Indians on the reserves where farming is carried on are now mostly of frame construction. The outbuildings, however, are generally of logs, but even there there has been some improvement.

## ALBERTA

*Agencies.*—The following agencies are included in the Province of Alberta: Blackfoot, Blood, Edmonton, Hobbema, Peigan, Saddle Lake, Sarcee, Stony and Lesser Slave Lake.

*Tribal Origin.*—The Alberta Indians are of Algonkin stock, with the exception of the Sarcees near Calgary and the Beavers and Slaves in the Lesser Slave Lake agency, who are Athapascan, and the Paul's band in the Edmonton agency,

15 GEORGE V, A. 1925

who are Iroquoian, and the Stonies, who are of Siouan stock. The Algonkin Indians of Alberta are subdivided into Blackfoot nation, comprising the Indians of the Blackfoot, Blood and Peigan agencies, Plain Crees found in the Lesser Slave Lake, Saddle Lake, and Hobbema agencies, and a band of Ojibewas at Moberly Lake, in the Lesser Slave Lake agency.

The principal occupations of the Indians of Alberta are farming and stock-raising. Almost all the reserves in the settled districts of the province have large herds of horses and cattle.

In the northern parts of the province hunting and trapping are still almost the sole sources of income; there is practically no farming carried on and the construction of steamers on the Peace and Athabasca rivers, and of the railways to Peace River Crossing and Fort McMurray, have greatly lessened the wages of the Indians with the trading companies and transports. However, the price of fur has been even higher than in past years.

*Buildings.*—In the southern part of the province the dwellings and farm buildings are of excellent construction and quality. Almost all the reserves where extensive farming is carried on boast of up-to-date modern dwellings, comfortable and well constructed. In the northern parts of the province the majority of the Indians continue to follow their primitive nomadic mode of life, and many of them still live in tents and tepees during the greater part of the year.

#### BRITISH COLUMBIA

*Agencies.*—The following agencies are included in the Province of British Columbia: Babine and Upper Skeena, Bella Coola, Cowichan, Kamloops, Kootenay, Kwawkwalth, Lytton, New Westminster, Okanagan, Queen Charlotte, Stikine, Stuart Lake, Vancouver, West Coast, Williams Lake and Skeena River.

*Tribal Origin.*—The Indians of the Bella Coola, Cowichan, Kamloops, Lytton, New Westminster, Vancouver, and Okanagan agencies belong to the Salish tribe. The Kootenay tribe is located in the agency of the same name. The Kwakiutl-Nootka tribe is located at the Kwawkwalth and West Coast agencies: the Haidas, in the Queen Charlotte islands; the Tlingits, in the Stikine; and the Tsimshians, in the Skeena River agency. The Indians of the Babine, Stuart Lake and Williams Lake agencies belong to the Athapaskan race.

In addition to these there are about 3,000 nomadic Indians in the province who cannot be correctly classified according to linguistic stock or tribal origin.

*Occupations.*—The occupations of the Indians of British Columbia vary with their habitat. The Indians situated along the coast earn their livelihood principally by fishing. In many instances they own their own motor-launches, nets and gear, while others are supplied by the various canneries. Many of the women are also employed in the canneries or in the hop fields, and make a very steady income.

The Indians of the Queen Charlotte islands own and operate their own small plant for rendering the oolachan or candle fish. In the inland parts of the province some farming operations are carried on and particularly in the irrigated districts grain, fruits of all kinds, and vegetables have been raised with success.

These Indians have been making marked progress in this regard and are now well equipped with modern machinery.

The Kootenay, Kamloops, Okanagan and New Westminster Indians own large herds of horses and cattle. While the Indians in the northern and remote parts of the province still depend upon hunting and trapping for their livelihood, the agents report a marked improvement in their manner of living.

*Dwellings.*—Except for the more remote districts the Indians have built comfortable and modern dwellings and outbuildings. Their progress in this respect has been perhaps more rapid than any other Indians of the Dominion.

## SESSIONAL PAPER No. 14

## NORTHWEST TERRITORIES

*Agencies.*—The department has now three agencies in the Northwest Territories, namely Fort Simpson, Fort Smith, and Fort Resolution.

*Tribal Origin.*—The principal tribes found in the Far North are the Slave, Hares, Loucheux, Sicannies, Dogribs, Yellow-knives, Chipewyans and Caribou Eaters. All these tribes are of Athapascan stock. There are a few Crees in the neighborhood of Chipewyan. These are of Algonkin stock. The most northerly tribes are the Takudah, who extend to the Mackenzie Delta; and the Copper Mines, who are located along the Coppermine river. The territory occupied by these two last-mentioned tribes is contiguous to that inhabited by the Eskimos.

These Indians depend entirely upon hunting and trapping for a livelihood. The department recently made a treaty with the Indians along the Mackenzie river thus bringing under the supervision of the Dominion Government practically the only Indians in Canada with whom treaty had not been made.

*Occupations.*—A few have been induced to raise small plots of potatoes. They own no horses or cattle, transportation being almost entirely by canoe along the great waterways, or by dogs in winter. They catch and preserve large quantities of whitefish for their own use and for consumption by their dog-trains in winter.

*Health.*—Tuberculosis and scrofula are the diseases most prevalent among the Indians of the north. As they are forced to move from place to place their methods of living are primitive and the lack of vegetables is a source of menace to their health; however, conditions are greatly improving.

## YUKON

*Tribal Origin.*—The Forty Mile, Blackstone, and Moosehide bands belong to the Takudah tribe. There is a band of Slavies at Lancing Creek who migrated from Fort Good Hope, on the Mackenzie river; another band of Slavies, called Nahanies, is located at the headwaters of the Pelly river. All these Indians are of Athapascan stock. At Mayo, Selkirk, Little Salmon and Carmacks there are bands belonging to the tribe known as Stick Indians. Bands belonging to the Tlinjit tribe are found at Whitehorse, Teslin Lake, Champagne Landing, and Carcross.

*Occupations.*—Hunting, trapping and fishing are the chief occupations of the Yukon Indians, and they have been fairly successful during the past year. The women also derive some revenue from the sale of mocassins and curios of various kinds, while the men are expert at making toboggans and snowshoes. Practically no farming is carried on owing to climatic conditions, but some of the Indians cultivate patches of potatoes and other vegetables.

*Health.*—The general health of the Indians has been good. No epidemics have been reported and although improvement in sanitary conditions is necessarily slow owing to the remoteness of the district, some improvement has been noticed.

## FINANCIAL

At the close of the twelve months ended March 31, 1924, capital of the Indian Trust Fund, which at the end of the preceding year amounted to \$11,516,212.72, had increased to \$11,931,368.74.

The amounts expended from the Consolidated Revenue Fund were as follows: Voted by Parliament for the purposes of the Department, \$3,547,235.05, and annuities by statute, \$212,587.00.

15 GEORGE V, A. 1925

On March 31, 1924, the balance to the credit of the Indian Savings Account for the funding of the annuities and earning of pupils at industrial schools was \$150,462.07. Deposits and interest during the twelve months aggregated \$40,047.72, and withdrawals \$22,910.52.

### GENERAL

During the present year a complete census has been made by the department of the Indians and Eskimos of Canada. This is the first census that has been taken by the department since 1916. It shows a slight increase over previous records, establishing the fact that the Indian race is not dying out although there exists a popular misconception to this effect.

The census is published in full in Part Two of this report, which follows herewith, and wherein will also be found statistics with regard to Grain, Vegetable and Root Production; Land, Private and Public Buildings and Property; Live Stock and Poultry; General Effects; Value of Real and Personal Property and Progress during year; Sources and Value of Income; Schools; Indian Land; Civil Government; Appropriation Accounts and Indian Trust Fund.

I have the honour to be, sir,

Your obedient servant,

DUNCAN C. SCOTT,

*Deputy Superintendent General of Indian Affairs.*

PART II

## SCHOOL STATEMENT

## STATEMENT of Indian Day Schools in the Dominion for the Fiscal Year ended March 31, 1924.

NOTE.—The "Standard" indicates the classification of the pupils according to the reading-book used and therefore shows the degree of general advancement in all the studies prescribed by the curriculum, thus:—

Standard I.....First Reader, Part I.  
Standard II.....First Reader, Part II.  
Standard III.....Second Reader.  
Standard IV.....Third Reader.  
Standard V.....Fourth Reader.  
Standard VI.....Fifth Reader.

\* A Governor General's warrant covers this overexpenditure and the Supplementary Estimates 1924-25 will provide for it.

† A greater expenditure was incurred on Annuities Account owing to a Treaty having been negotiated with Indians of the Mackenzie River District. The amount of the grant should be increased from \$205,290 to \$223,000 in connection with the estimates for 1925-26.
